Then, your savior is in hair accessories. It's the perfect way to add a little fun into any appearance. Check out how **Rihanna** added a little *sumpin'-sumpin'* to her outfit with the cuter scarf. Here's a list of everything from the inconspicuous to center of attention hair accessories depending on how glamorous you want to feel today.

2. **Goody simple styles Spin Pin in Blonde** (\$6.29, [target.com](#)). The ultimate working gal's bff. Simply style the back of your hair into a bun and screw in these pins. They're invisible and provide you with a loose, looking stylish bun that stays in place.
