How To Wear The Metallic Trend

Metallic accessories are a perfect way to top off the bold colors and prints that are hot this winter because they go with everything! Today's metallic accessories can be worn every day and everywhere, but to avoid looking too "shiny," incorporate metallics in subtle ways, with your bag, jewelry or even your nail polish!

Bag

Nahui Ollin offers eco-friendly handbags made from assorted wrappers and labels that will let your outfit shimmer. (Bonus-Because each bag is handmade, there will never be two that are exactly the same) www.nahuiollin.com.

Nails

Silver, graphite, chrome and platinum nails are replacing pale pinks as the color this season. Celebrities like Mischa Barton, Lindsay Lohan and Heidi Klum are all sporting it.

Np2 Nail Perfection is an innovative nail polish duo of durable, chip-resistant color base coat paired with an express top coat. The patented 2-in-1 bottle offers a brilliant, vivid base shade perfectly paired with a superior clear protein nail treatment top coat to provide long lasting wear and healthy nails. Np2 has fantastic metallic colors that are perfect for spring. www.np2beauty.com.
