Use Gwyn's Casual Chic Get-Up As Inspiration For Your Date Night Outfit & Get The Look For Less!

Big date and don't know what to wear? Don't stress, luckily we have the perfect get-up just in time for the weekend!

I'm super indecisive when it comes to just about everything — but it's even worse when I'm trying to pick out the perfect outfit! Date night get-ups are easily the toughest to decide on — you want to look stylish and sexy without seeming like you're trying too hard, and nothing is worse than feeling too dressed up or way too casual. When I first saw **Gwyneth Paltrow's** get-up at the **Kate Who?** exhibit by **Mario Testino** in London on Jul. 5, I couldn't get over how effortlessly chic she looked. Her outfit was simple and flattering while still having a stylish edge and she accessorized flawlessly — whether she was going to a restaurant or getting ready for a night out on the town she's ready to go! Her black shorts are just the right length — they're sexy and flattering without being inappropriate.

The first step to a great date is wearing something you feel totally confident in — if you're a jeans type of gal, wearing a tight dress isn't your best bet — instead, dress up your usual pair of skinny jeans. Check out our picks below if you want to score the perfect affordable get-up for your big date!
