

You can do black and gold!

Black and gold 101:

TEST-DRIVE THE LOOK

"The simplest way to incorporate the trend into your everyday wardrobe is by carrying a fabulous black bag with gold hardware," says Mark Phillips, designer of Nu Collective.

REVIVE BASICS

"Update old items with some of this season's black-and-gold accessories," Phillips says. Pair last year's little black dress with a black-and-gold belt, scarf or necklace.

MAKE IT WORK

"Keep your outfit office-appropriate by adding just a flash of gold," says Phillips, like a bracelet or earrings.
